A Biker's Dream Come True...

Riding your bike no longer means you are out of touch while on the road. The new SCALA RIDER® Bluetooth headset makes those long bike rides a breeze. Attach this streamlined headset to your helmet and conduct a cellphone conversation at your leisure without compromising your safety.

Thanks to the MDC (Multiple Device Connection) technology you can also receive GPS voice instructions straight to your headset.

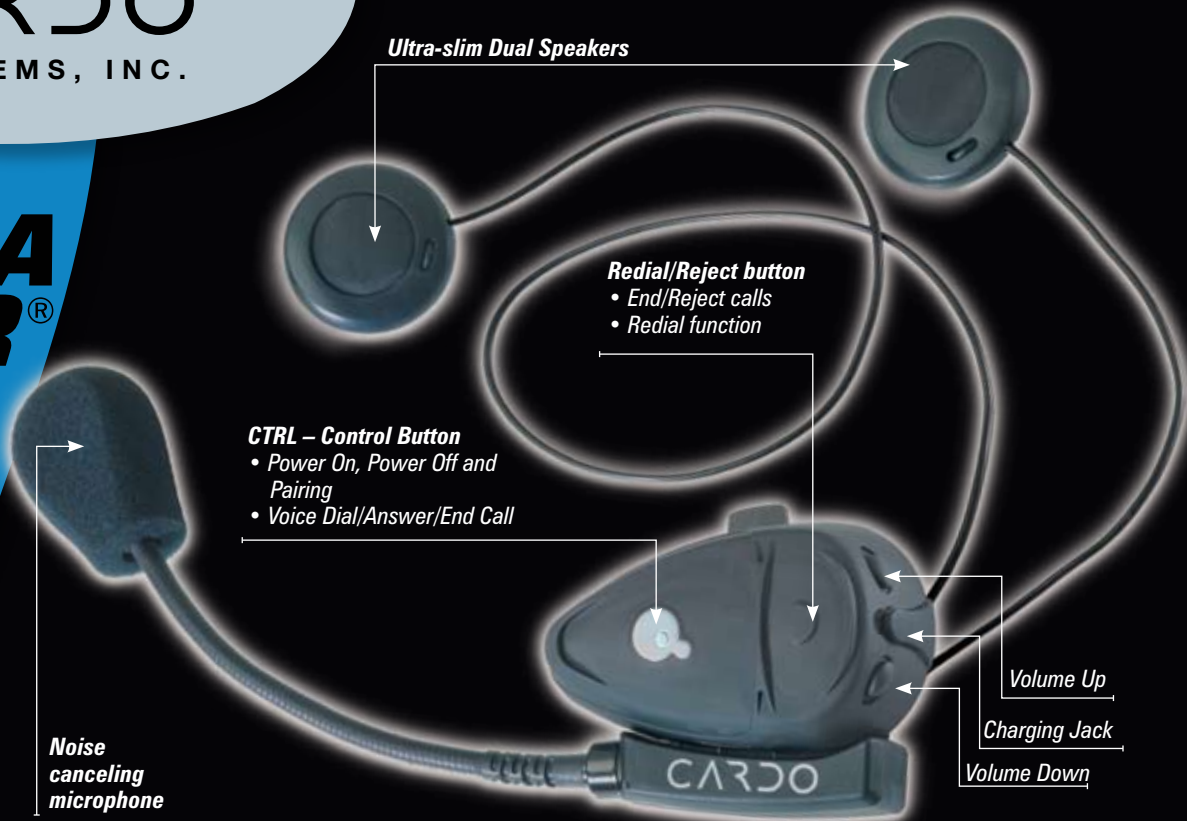

If the environment gets noisy or you increase your driving speed, the headset automatically adjusts the sound level.

Incoming calls can be rejected or received by simple voice control.

Designed and Engineered for Heavy-Duty Performance

- Receive, Initiate, and reject calls by voice command (subject to mobile phone capabilities)
- Transmit navigation instructions from your GPS device
- Fits all full-faced and ¾ helmets
- Fully weather protected
- High quality audio
- Automatic volume adjustment
- Voice control technology
- Easy installation within minutes
- Up to 7 hrs. Talk / 1 Week standby
